Company Overview

Esmet is a manufacturing company with corporate offices, research & development and manufacturing facilities located in Canton, Ohio.

Core Competencies

Esmet's manufacturing capabilities include turning, milling, drilling, tapping, welding, metal fabrication and assembly. We successfully produce high-quality components to exact specifications. Backed by our Engineering and Quality Control Departments, our manufacturing workforce includes skilled programmers, machinists, welders and assembly personnel.

Products & Services Offered

Esmet manufactures two distinct brands to a wide variety of global markets:

- Electroline® Swivels and End Fittings for Wire & Synthetic Rope
- These products are trusted by professionals around the world and are used in a multitude of venues such as: U.S. military ships, airports, pedestrian walkways, zoos & amusement parks, sailboats, sports stadiums, highway cable barriers and many more.
- Tufloc® Gun Racks, Security Drawers, Lockers and High Security Locks
- These products are used by military, law enforcement, fleet and homeowners.

Additionally, Esmet manufactures custom products to a wide range of industries including the US Military and Federal, State and Local Law Enforcement.
